1. I have informed Mr. Hamilton of the Bureau of the Budget that it will again be necessary to revise the language in Title V of the proposed Military Construction Act by striking out all reference to the authorization for \$8,500,000 for the extension of the George Washington Parkway to the Langley site. I have asked Mr. Hamilton to keep this information on a confidential basis for the time being as the elimination of this proviso means the elimination of consideration of the Langley site as a possible place for a CIA building. I have also indicated that the \$50,000,000 construction figure will also have to be reopened for consideration.
